

Mid Valley Pipeline Spill Update for 10/16/2014

- There are 197 total personnel working the Response.
- There have been no reportable injuries
- Total estimated liquid recovery to date is approximately 1409 bbls of crude oil, and 397 bbls of water. Amounts of oily debris and contaminated soils will be updated later today.
- No additional evacuations have occurred. There continue to be 3 residences adjacent to the spill pathway that remain voluntarily evacuated.
- No impacts to Caddo Lake have been reported; Oil collection points remain unchanged at Old Mooringsport Latex Road and Hereford Road. A third collection point is being constructed along Miller Branch Creek between OML Road and Hereford.
- The pipeline spill origin point continues to be excavated and should be exposed sometime today.
- Wildlife Recovery numbers will be updated later today.
- The UC has reviewed and approved a Demobilization Plan, a Decontamination Plan for workers in the hot zones and a Site Safety Plan. A Waste Management Plan is currently under review.
